**GEORGE W. DAVREN.****The "Nervous" Condition.**

The term "nervous" is a broad term used to denote a diseased condition of the nerves that is very common. The disease is a debility or weakness that affects especially the nervous system. There may be no well-defined trouble, yet those who suffer with nervousness will complain of many things, mental depression, inability to rest well, twitching, aching limbs, and hundreds of nervous disorders. Sleep is not refreshing and the patient wakes up tired. Although the lungs, heart, liver and kidneys are sound, yet there seems to be serious disease in these vital organs, and sufferers with weak nerves feel that all their physical powers are failing.

Nervousness is wholly the result of wear and tear of the nervous system, caused by irregular habits, long-continued anxiety or worry, too great business responsibility, and any cause which tends to diminish the vigor of the body.

The beautiful delicacy of the nervous system can be appreciated when it is considered that the nerve fibres do not exceed one-fifteen-hundredth of an inch in diameter.

Each of these nerve fibres proceeds from the nerve centre with which it is connected, to the point at which it terminates, without uniting with any other.

So delicate is the structure and so intimately associated are its parts, that the nervous system can be deranged easily, and diseased or weakened.

Often sufferers from nervousness do not realize that their nerves need nourishing and strengthening. They wait and hope until the condition is of long standing before acting. Here is a case in point.

Brooklyn, N. Y., Aug. 2, 1904.—"It affords me pleasure to voice my appreciation of Paine's Celery Compound, as I think it a truly wonderful remedy. It cured me of nervousness and stomach trouble of long standing when all other remedies failed."

—Geo. W. Davren, 5401 Fifth Ave.

Victims of nervousness—those whose very life hangs heavy on their hands, depressed by their existence, or borne down by stress of overwork; Paine's Celery Compound stands ready to build the nerves back to their healthy condition—to put an end to sleeplessness, and to drive away every ache and pain.

Two days' treatment with Paine's Celery Compound will give proof of its marvelous powers.

For 17 years this famous prescription has been the most universally used tonic in the world. It has stood the test of time. Physicians constantly use and prescribe it. No prescription has ever been formulated that equaled it in curative power.

Remember this—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, and all reputable Druggists sell and recommend it.

MAY DAY DEMONSTRATIONS.
PARIS, May 2.—Last night the city was very quiet, although the police have found several unexploded bombs. Workmen were riotous during yesterday, however, and there were several May Day demonstrations, none of them serious. The city was closely guarded by the police, and seven thousand troops were scattered to various points where danger was apprehended. There were over seven hundred arrests during the day.

The day was characterized by violent manifestations at Marseilles.

COAL VS. DIAMONDS.
"I think," says John Oliver Hobbes (Mrs. Craigie), "American women spend more money for clothes and gems than any other women in the world." The coal operators intend, however, to correct this evil, at least in a measure, as soon as they can.—Chicago Record Herald.

MUTUAL.
"Sugar and spices!" drawled the young man in the twisted felt hat and wide-checked suit, "but that fellow's clothes are simply ridiculous."

"Tidal waves and typhoons!" exclaimed the sable youth in palm leaves and pearl, but did any one ever see such clothes as the pale brother wears? Umph! He looks like a monkey."

N. B.—This was when the college man and the south sea islander met for the first time.
